Re: Revised Draft RCRA Phase I Work Plan (revised 6/16/02)  
DuPont Fluoroproducts - Fayetteville Works  
EPA ID # NCD 047 368 642

Dear Mr. Johnson:

The North Carolina Hazardous Waste Section has reviewed the revised Draft RCRA Phase I Work Plan submitted by DuPont-Fayetteville. As a result of this review, the HWS has determined that the current version of the plan constitutes an acceptable RFI work plan.

DuPont-Fayetteville should begin implementation of the work plan as soon as possible, and the schedule presented in Appendix A of the work plan should be followed. Since Phase I RFI activities are scheduled to take longer than 180 days, DuPont-Fayetteville should submit quarterly progress reports to the Hazardous Waste Section.

If your office has any questions concerning this correspondence, please give me a call at (919) 733-2178 extension 236.

Sincerely,

Larry Stanley, Hydrogeologist  
NC Hazardous Waste Section
